

I am

a worker

I'm trying to

keep a
surrounding
clean

But

it is not a
easy task

Because

workers will not able to
collect the garbage
wastes in same places
everyday

Which makes me feel

people will move
(or) change their
dustbin places

I am

a public

I'm trying to

dispose the
garbage waste

But

garbage can has
been filled with
wastes

Because

garbage drum
was not cleaned
in time

Which makes me feel

it seems that my
surroundings was
dirty (or) ugly.
